Background

...

Since our founding in 2004, The Junkluggers has been an eco-friendly junk removal company committed to the environment and the communities we serve.

The amount of household and commercial waste that ends up in landfills each day is astronomical. We believe that a lot of this is avoidable, and with just a little attention to detail - and a lot of love for our planet - we can help reverse this growing problem.

We provide sustainable disposal services for homes and commercial properties large and small - as well as unwanted items of all kinds. Our team of friendly professionals removes your property and donates it to local non-profits and charities. Anything that cannot be donated or repurposed is carefully broken down and recycled, if possible.

How we'll work

...

1. Property Preparation

To ensure the safety of all luggers and that of the property, we plan the path out of the building for both safety of our tea m and to remove the risk of property damage. If needed, we will also work with a snow removal service to ensure the pathway from the property to the trucks is clear and safe.

2. Breakdown - Removal

Some items will be safely broken down to save space in the truck. Anything deemed to be donatable or recyclable will be separated first. Our drivers will take these items to our recycling and donation centers. All else will be taken to disposal facility.

3. Sorting and Bagging

The team of luggers will work through each section of the facility sorting and loading small items to assure proper disposal. During the process, any items identified for donation will be documented. We will bag items if needed to prevent any spills or damage to the property.

4. Removal - Cleanup

Junkluggers will provide a team of “Luggers” to remove items from your property, load them into our trucks, haul them off, and dispose of them in as eco-friendly a manner as possible. Completed sections will be swept prior to departure.

Desired outcomes

...

Clean

Upon completion, and except for the items identified as staying, we will make sure all items identified by home owners are removed. We will not be attempting to remove any items that are attached or installed, e.g. carpet, cabinets etc. The areas will be left broom swept and organized

Itemized list of Donations

Helping others and the environment is our focus. We look to donate first and recycle second. Only items that cannot be donated, recycled, or repurposed will be disposed. If we can donate anything on your behalf, you will receive a tax-deductible receipt for those items. This can offset some of the cost of our service. Everyone wins!

** Ultimately, the donation centers we partner with have the final say in what items they accept. We cannot guarantee your items will be donated and a donation receipt will be provided, but we will do our very best to find a donation center for your items.*

100% Satisfaction

Plain and simple, we aren't happy unless you are. At The Junkluggers, we are confident in the services we provide. We always aim for 100% customer satisfaction and if you aren't happy, let us know – we will do everything we can to make it right.

On-Time Arrival

We value your time, so we try to schedule the most convenient arrival window to fit your busy schedule.

(not so) Fine print …

- If items take up less space than anticipated, then **price will be reduced accordingly**
- Frequently not all items were visible or accessible during the estimate. There may be additional recycling charges based on what is uncovered during the removal. We have included a fee schedule on the next page for these items, should they be found (typically tires, oil paint cans, TVs & mattresses).
- Junkluggers cannot remove or transport flammable or explosive materials such as gas, propane, ammunition, firearms, compressed air cylinders, etc.
- Junkluggers cannot remove biohazards such as some chemicals, some pesticides, animal waste, etc
- Some items may need to be dismantled to safely exit building
- W9 and Certificate of Insurance available upon request
